Be a Part of it!

TESTIMONIALS

"The breathtaking view of the mountains, combined with the amazing program in such a relaxed and refreshing environment has made LVN retreats my choice of summer vacation over any other."

Kaila, USA

"The retreat was such a breather! The friendships I formed, the crisp air and invigorating hikes and off course the outstanding shiurim made me come home completely refreshed. The camaraderie, inspiring program and comfortable atmosphere amongst us girls, was way above anything I experienced in school or in seminary. The friendships were real! The growth was real! The outlet was real! It was simply 10 days of pure pleasure and enjoyment both spiritually and physically. It is something that has stayed with me until today."

Nechama, Eretz Yisrael

"I have never experienced such a true mein olam habah like on a LVN retreat! Every aspect of it - the ruchnies, the gashmies, is indescribable. There is nothing like being there in the alps and climbing those mountains, being so completely disconnected from any worry in the world and just so connected to Hashem."

Gitty, USA

"Rabbi Miller's shiurim are brilliant beyond brilliant! Rabbi Miller dispels many kindergarten myths about our relationship with Hashem. The Ani Maamins now have a whole different meaning for me. It gave me a foundation in emunah, which no one gets in school, because it's geared to us - mature young women. And it's something we can hold on to the entire year."

R.F. England

"There was something unique about drinking in words of inspiration while sitting at the foothills of the breathtaking mountains in the alps. The retreat was an opportunity for me to recharge my spiritual, emotional and recreational batteries in a beautiful environment and in an atmosphere of warm friendship that wrapped up in a summer of a lifetime!"

Miriam, England
